

CAMP OF CHAMPS

Camp of Champs MN is proud to present...

Our camps are fully committed to developing life and social skills, self esteem, and character for children with special needs. These camps focus on building communication skills, self-control, leadership, team concepts, self-advocacy and much more. We are an outdoor based, experiential camp that allows children of diverse backgrounds an opportunity to develop their strengths. Most critical to the success of the Camp of Champs is the emphasis on the development of age appropriate social skills. Our philosophy emphasizes direct teaching and gives countless opportunities to practice these skills. Our camp staff are highly qualified counselors with backgrounds in education, social work, psychology, and nursing.

"Our daughter has been attending Camp of Champs for 5 years. She's more confident, able to develop friendships more easily and comes home a better person each summer! Thanks to the staff and programming at Camp of Champs!"

-2024 camp parent

Connection and Transition

Our hope is for your camper to return home with skills that will lead to success. To assist, we provide camp families with follow-up information as well as unlimited email support throughout the year to help with behavioral strategies, due process, or a place to share and receive support.

A Top Resource

Our camp system has become a top resource for parents of children with special needs. Youth will participate in ropes course challenges, water activities, sports, crafts and more. They will learn strategies to apply at home, school and the community for increased success. Benefits are many including:

- Customized objectives.
- 4:1 camper to staff ratio.
- Great variety of activities and flexible programming options.

All sessions provide a unique experience that suits campers age, ability and developmental level and extreme care is taken to supervise campers during the day and night. Our camp staff will also work to accommodate special requests that parents or agencies may have.
